PRESS RELEASE 2009-204

LANCOM presents the first in their line of Gigabit switches

LANCOM GS-1108: Silent, small, black, and powerful

Aachen, March 18, 2009 - Rohde & Schwarz Networks and Cybersecurity premiers their first Gigabit network switch; the R&S®LANCOM GS-1108. The first of a new line of products, this is an unmanaged switch with eight Gigabit-Ethernet ports. Further devices are due to for introduction in the coming weeks. Its size and the fan-free design make the R&S®LANCOM GS-1108 ideal for operation in smaller offices, business premises, and home offices.

The quality and reliability of convergent networks depends heavily on the quality of the network's switches. With this new line of Gigabit switches, LANCOM offers customers and sale partners a line of components which are fully compatible to the R&S Networks and Cybersecurity product range and in the customary LANCOM quality. The status of the connections is clearly displayed on the front of the switch. The integrated power adapter and the robust metal housing emphasize the professional focus of this device.

The R&S®LANCOM GS-1108 is available now at EUR 99 excluding V.A.T. and local taxes.

Gunnar Mayer, Product Manager at Rohde & Schwarz Networks and Cybersecurity GmbH: "The GS-1108 is the first of the range of Gigabit switches from LANCOM. Its size and the fact that it operates completely silently make it ideal for offices, business premises and home offices."

Rohde & Schwarz Networks and Cybersecurity background

Rohde & Schwarz Networks and Cybersecurity GmbH is the leading German manufacturer of reliable, innovative network components for large enterprises and SMEs, public authorities and institutions. The company supplies products and software for IP-based VPN, VoIP and wireless networks, along with support and services. Products are planned and developed specifically for the requirements of business customers. The focus is on comprehensive solutions for site connectivity by virtual private networks (VPN) and on wireless networking (WLAN). Rohde & Schwarz Networks and Cybersecurity GmbH is headquartered in Würselen near Aachen and has sales offices in Munich, Barcelona, Bozen-Bolzano and Amsterdam. The company's founder and Managing Director is Ralf Koenzen.
