LANCOM starts international partner roadshow LANupdate 2015

Successful roadshow on tour in Europe

Aachen, April 01, 2015—LANCOM Systems, the leading German manufacturer of networking solutions for the commercial and public sectors, continues its LANupdate series of events in 2015. This spring, the roadshow travels to five European countries. The tour focuses on a review of the CeBIT exhibition and the topics and main areas of focus presented there.

The LANCOM Roadshow "LANupdate Spring 2015" kicks-off on April 21 in Hoevelaken, Netherlands. In total, five half-day events are planned. Visitors will receive a concentrated update on the latest solutions, products and features in All-IP, (high-security) site connectivity and WLAN infrastructures. Systems vendors and specialist resellers can find out more about the trends presented at CeBIT and sharpen their competitive edge. These topics include:

• LANCOM All-IP – easy migration from ISDN to all-IP without component replacement

• LANCOM Wireless ePaper Solutions – the worldwide first for radio-controlled digital

signage

• New Service & Support products – professional support for your individual needs

• Highlights and preview of the LANCOM operating system LCOS 9.10

• LANCOM Clustering – grouping and centralized management of WLAN controllers and central-site VPN gateways

• LANCOM Certificate Authority – highly secure VPN connections based on digital certificates

• Preview 2015 – exclusive insights into upcoming Enterprise Features

Attendees of LANupdate can complete an online survey and receive a R&S®LANCOM Public Spot Option.

The dates and locations of the LANupdate Spring 2015 in detail:

• April 21, 2015 Hoevelaken (Netherlands)

• April 22, 2015 Brussels (Belgium)

• April 23, 2015 Kildare (Ireland)

• May 19, 2015 Ljubljana (Slovenia)

• May 20, 2015 Belgrade (Serbia)

Rohde & Schwarz Networks and Cybersecurity background:

Rohde & Schwarz Networks and Cybersecurity GmbH is the leading German manufacturer of reliable, innovative network solutions for business customers. LANCOM's two business units, VPN Network Connectivity and Wireless LAN, offer professional users secure, flexible infrastructure solutions for local-area and multi-site networks. The entire core product range is developed and manufactured in Germany. In addition, LANCOM also provides VPN solutions certified by the German Federal Office for Information Security (BSI) for the protection of particularly sensitive networks and critical infrastructures (EPCIP) against cyber attacks. Rohde & Schwarz Networks and Cybersecurity has its headquarters in Würselen near Aachen, Germany, and other offices are located throughout Europe. Customers include small and medium-sized enterprises, government agencies, institutions, and major corporations from Germany, Europe and increasingly worldwide. The enterprise is a partner in the Alliance for Cyber Security initiated by the BSI.
