Roadshow on tour in Europe

LANCOM starts partner roadshow LANupdate 2014

Aachen, May 7, 2014—LANCOM Systems, the leading German manufacturer of networking solutions for the commercial and public sectors, goes on international tour with its long-standing reseller roadshow LANupdate. The roadshow visits a total of nine European cities. This tour focuses on current topics introduced at the CeBIT, including the Gigabit WLAN access points for enterprises, solutions for mobile and fixed VPN site connectivity, and also high-security routers. The primary target groups for the event are VADs, specialist resellers, and system vendors.

The LANCOM Roadshow "LANupdate 2014" kicks-off on May 20. A total of nine events are planned to take place in the proven half-day format. Visitors will receive a concentrated update on the latest solutions, products and features in (high-security) site connectivity and WLAN infrastructures.

VADs, systems vendors and specialist resellers can find out more about the trends presented at CeBIT and sharpen their competitive edge. These topics include:

- Presentation of Rohde & Schwarz Networks and Cybersecurity and product lines

- The Gigabit WLAN access points LANCOM L-1302 and 1310acn dual Wireless

- LANCOM Active Radio Control: Radio field optimization for wireless LANs

- Review of the LANCOM operating system LCOS 8.84 and a preview of LCOS 9.0

Dates and locations in detail:

- May 20: LANupdate Dublin (Ireland)

- May 21: LANupdate Glasgow (Scotland)

- May 22: LANupdate Reading (England)

- June 03: LANupdate Hoevelaken (Netherlands)

- June 04: LANupdate Warsaw (Poland)

- June 17: LANupdate Ljubljana (Slovenia)

- June 18: LANupdate Zagreb (Croatia)

- June 19: LANupdate Belgrade (Serbia)

- July 17: LANupdate Brussels (Belgium)

Rohde & Schwarz Networks and Cybersecurity background:

Rohde & Schwarz Networks and Cybersecurity GmbH is the leading German manufacturer of reliable, innovative network solutions for business customers. LANCOM's two business units, VPN Network Connectivity and Wireless LAN, offer professional users secure, flexible infrastructure solutions for local-area and multi-site networks. The entire core product range is developed and manufactured in Germany. In addition, LANCOM also provides VPN

solutions certified by the German Federal Office for Information Security (BSI) for the protection of particularly sensitive networks and critical infrastructures (EPCIP) against cyber attacks. Rohde & Schwarz Networks and Cybersecurity has its headquarters in Würselen near Aachen, Germany, and other offices are located throughout Europe. Customers include small and medium-sized enterprises, government agencies, institutions, and major corporations from Germany, Europe and increasingly worldwide. The enterprise is a partner in the Alliance for Cyber Security initiated by the BSI.
