LANCOM touring Europe with their annual roadshow

LANupdate 2016 with additional stops in the Netherlands, Ireland, Belgium and Luxembourg

Aachen, April 6, 2016—LANCOM Systems, the leading German manufacturer of networking solutions for business customers and the public sector, are again on tour across Europe with their 2016 LANupdate roadshow. The focus is on high-performance Wi-Fi solutions for high-bandwidth wireless links indoors and outdoors and solutions for secure VPN site connectivity for the private and public sectors. Also on preview is the R&S®LANCOM Management Cloud. The tour lasts from April until June and has eighteen stops in Germany, Austria, Switzerland, the Netherlands, Belgium, Luxembourg, and Ireland.

LANupdate is aimed at partners, specialist resellers, system vendors and interested LANCOM users. During the half-day event, LANCOM provides an overview of the current product portfolio, new solutions and features in networking, secure site connectivity, and 802.11ac WLAN. The company also reveals first exclusive insights into the LANCOM Management Cloud, which in future will provide clearly-structured and efficient configuration, management and monitoring of entire networks. With this valuable first-hand information, participants are assured of gaining a real competitive edge. Topics include:

• LANCOM Management Cloud: The secure alternative for efficient, cloud-based network management, “Made and Hosted in Germany”

• High-performance Wi-Fi: The new range of 11ac WLAN access points including the new LANCOM LN-830E access points featuring Gigabit WLAN, digital signage, and iBeacon technology.

• Secure network connectivity: The portfolio of business VPN routers, VPN gateways, and Gigabit Ethernet switches

• Firmware LCOS 9.20: Update for maximum security and best-ever Wi-Fi

The English-language dates and locations of the LANCOM LANupdate tour in detail:

• April 19, 2016 Hoevelaken (NL)

• April 26, 2016 Kildare (IRE)

• May 31, 2016 Brussels (BEL)

• June 01, 2016 Kirchberg (LUX)

Anybody Interested in taking part in LANupdate can register under:
