ROUTER MATCHMAKER

How do you find the ideal router for your network quickly and easily? Simply answer the following questions:

For projects with professional telephony requirements, the R&S®LANCOM 2100EF and VoIP routers offer powerful solutions. Depending on your needs, R&S®LANCOM Secure SD-WAN Gateways and routers can be flexibly enhanced with software options – including All-IP functionality, content and BPjM filters, or additional VPN channels.

An overview of hardware features can be found in the comparison table.

For virtualized infrastructures, the R&S®LANCOM vRouter provides comprehensive networking and security features. It can be flexibly deployed as a branch router (vCPE), central site VPN gateway (vGateway), or WLAN controller (vWLC).

As an end customer or reseller, you can purchase your selected router through our sales channels.
