

FIREWALL MATCHMAKER

By answering the following questions, you will find the right firewall for your IT security in a few seconds!

Please note that the following specifications refer to R&S®LANCOM Unified Firewalls with (SAG) Full License, so that all Unified Threat Management (UTM) functions are available to you. If you are trying to decide between a smaller or a larger firewall, we recommend that you choose the larger firewall in the interests of scalability. An overview of hardware features and technical system performance can be found in the comparison table.

All R&S®LANCOM Unified Firewalls are next-generation firewalls "Engineered in Germany" and feature a consistent set of UTM capabilities, including sandboxing, machine learning, and R&S®PACE 2 Deep Packet Inspection. In addition to the hardware models, you can also choose the virtual R&S®LANCOM vFirewall, whose flexible licensing model allows it to scale with your needs in terms of UTM performance and network size.

As an end customer or reseller, you can purchase your selected firewall through our sales channels.

Rohde & Schwarz Networks and Cybersecurity GmbH

Adenauerstr. 20/B2

52146 Wuersele | Germany
