VISIO / DRAW.IO SHAPES 10/2026

Rohde & Schwarz Networks and Cybersecurity offers its own Visio and draw.io shapes that can be used in the Microsoft Visio or draw.io visualization software.

In the device overview from page 5 you can download the Visio or draw.io shape for the corresponding device directly by clicking on the symbols V and D left to the device name. The shape can then be added to your Visio or draw.io drawing.

Shapes added this month are highlighted in color in both the device overview and the table of contents to make them easier to find.

In addition, a click on the page headers in the device overview will take you to the corresponding device category on the Rohde & Schwarz Networks and Cybersecurity website.
